A range of smartphone applications has been launched to help voters in making an informed choice this elections.

The applications feed users with statistics, profiles and allegations against the candidates on their phones.

'[India Elections](#)' by engineering students Rohit Singh and Sweta Suman, 'Indian Elections 2014' by DVDroid, 'India Elections 2014' by Jaydip Gohil, 'iCitizen-India Elections' by ProjectX Apps are some of the mobile applications helping a user get information about the elections free of cost.

The information about constituency, schedule, profile of candidates, trivia, [results](#) of past elections are available on the touch of one's phone through these applications which can be downloaded from the application market.

[Election](#) Commission has also launched an application which helps users check whether their name are in the electoral roll of the constituency and also find out the polling station.
